Dear John:

I want to extend my profound appreciation for your visiting East Hartford High School yesterday, May 3 to speak with seniors in our health classes. While I was able only to pop in from time to time, I spoke with a number of people who saw your presentation.

Without exception, everyone had high praise for both your message and your manner of delivery. What an exceptional role you have carved out in your life! What valuable service you give to the youth of this state and others. I am very impressed at how you have taken a great personal tragedy and turned it into an opportunity to help others.

We were very fortunate to have had you in our school. I wish you great personal success.

Sincerely yours,

  
Peter J. Kenny  
Assistant Principal
