

## John Westhaver Testimonial

To Whom It May Concern:

John Westhaver is an amazing man! I have heard John tell his story of survival and recovery after a horrific car crash several times. He is very inspirational and I take something new away every time I hear him. At our most recent Mamingwey Burn Society conference, John presented a new session that he called "UnLabelling Myself", where he encouraged all survivors to see themselves beyond their burns. This is a very important message and it was delivered in a kind, caring, and empowering way to our audience. John lives a message of hope as he shared that his scars do not define him; he exemplifies dignity, caring and by living the life he leads, he proves that life's struggles give one strength. I would highly recommend John to any audience, and will share some responses directly from our attendees.

"I found that with John Westhaver's presentation, he was such a captivating speaker that I didn't even realize how much time had passed and was surprised when he was done."

"John Westhaver's "UnLabelling Myself" was especially thought-provoking. As a burn survivor, I struggle with this..."

John is a true leader, and his message will blow you away!
